NEW STIMULANTS PRODUCED;
PRODUCTION OF NITRUS OXIDE TO START

NEW BIOLOGICAL STIMULANTS -- Meditsinskiy Rabotnik, No 17, 1 May 49

The Odessa Oblast Apothecary Administration has started producing new biological stimulants developed by Academician V. P. Filatov. He has named them "Aloe" and "Peloido-distillate." They are administered by subcutaneous injection.

During the first 3 months in 1949, more than 150,000 ampules of "Alce" have been manufactured. Plans call for several million ampules by the end of 1949.

NITROUS OXIDE PRODUCTION -- Meditsinskiy Rabotnik, No 18, 4 May 49

The Ministry of Public Health USSR is organizing the production of nitrous oxide to fill the needs of the public health service. Production will start during the third quarter of 1969 with equipment supplied by the Penzan Factory of Olsavudrom.

Glaxomedprom is also completing plans for putting into production new gas anesthesia equipment. Series production will start in 1950.
